The Convention will be held at the Supervisor's Room in the Court House, on the Priday of next week, at which time an answer will be given. Of course we shall not make two bites of a cherry, a fractional ticket is not entitled to and will not receive the united support of the Republican elec-lors of the county, and a failure to make full cominations would be sure to result in the elec-

I well remember going with my uncle the first time he consulted Dr. Graham. A manservant in a splendid livery, received us, and conducted us into the garden, and we saw there, what seemed a bed of cauliflowers. It was the age of wigs—of powdered wigs—and there were several old gentleman buried up to the neck in the gr. and, with the bead only to be seen above the earth, and a well whitened wig upon it. The footman led my uncle up to one of the most considerable of the wigs, and introduced him to his physician: "This, sir, is Doctor Graham." For the doctor took a bath every morning himself to encourage his patients, and shone forth on the surface of mother earth as the biggest of the big wigs. He could not feel my uncle's pulse, for his arms were interred a well as his bedy, but he bedded to the college, and has he bedded to the college, and many the prescribed an earth bath, which shortly afterwards my uncle took.

How Coffee Cars to be Used.—At the time Columbus discovered America, coffee had never been known or used. It only grew in Arabia and Upper Ethiopis. The discovery of its use as a drink is ascribed to the superior of a monastery in Arabia, who desirous of preventing the monks from sleeping at their nocturnal services, made them drink their infusion of coffee, upon the report of some shepperds, who observed that their focks were more lively after browsing on the fruit of that plant. Its reputation rapidly spread through the adjacent countries, and in about two hundred years it reached Paris. A single plant, brought there in 1614, became the parent stock of all the coffee plantations in the West Indies. The exact of its landing from fourteen to fitteen millions of dollars. You may know the Arabia or Mocha, the best coffee, by its small bean and dark color. The Java and East India, the next in quality, is a larger bean and of a pale yellow color. The West India. that the LOG MILL will be form more than Three Times
the work of a Muley Mill with the expense of Obs.

The SIDING MILL will perform from 5 to 55 more
work than any Shiling Mill over known. The per cent,
clean profit these Mills will make over the above estimaise of work will be, as will be seen at ence by a prace
tical man, much greater from the fact that the expense
of running, less hands employed, and seed to nothing
for reposite, are items in the emmafacture of Lomber
that eat up the profits to an alarming extent if not
